

Filer School District Mission

The mission of the Filer School District in partnership with students, parents, and community members is to provide a high-quality education that prepares all students to be life-long learners and productive citizens, contributing to our community, nation, and world.

We Believe:

- All people can learn
- That people learn in different ways, at different rates, and at different times
- In life-long learning, and that learning is an interactive, dynamic process
- Education is a shared responsibility of family, students, staff, and community
- Schools shall provide a safe learning environment that promotes academic, vocational, physical, and social development
- In preparing students to become productive members of society
- In high expectations, striving for excellence, and doing one's personal best
- Curriculum should be challenging and relevant to the real-world and integrated to help students connect ideas across content areas
- Students and staff have intrinsic value and deserve to be treated with respect and dignity
- In the importance of accepting and respecting our diversities
- An educational community needs effective internal and external communication
- Integrity must be a part of teaching and learning

**Knowledge is Power; Empower
our Students**
